Step 6: Next, click on the " AP" button and select the " tar md5" file (from Step 1).. Step 4: Next, and extract it to a folder in your computer Once it gets completed, you will see the green " PASS" message as shown in the screenshot below.. Once done, click on " Odin3 exe" to launch its window If you have installed the USB drivers of your device properly in the Windows computer, Odin will automatically identify your device and will show a " Added" message in the " Log" section.
