They decided to build up a good base of games before releasing the console to other regions.. At that time the standard was 256 colours The sound quality was also not comparable with consoles of that time.. This could not be repeated by any other system at that time The number of colours for those times was huge, not every graphic card could reproduce the same.. The console quickly gained popularity and began to dominate the Japanese market.. The system was released in the US only in September 1st, 1991 and became known as the Super Nintendo Entertainment System, abbreviated - SNES. 0041d406d9 Download Wallpaper Gerak Untuk Pcso
